

**Role: Project Accountant / FP&A (Financial Planning and Analysis)**

Amiosec is an exciting and growing UK technology company with innovation, agility and state of the art technology at its core. We work in partnerships with UK government customers and commercial providers to deliver research, technology and products in the communications security sector.

This is a highly varied role supporting the expansion of the highly successful research and technology company at its secure facility in Tewkesbury. The successful applicant will be a self-motivated team player who is highly organised and efficient with a common sense and a flexible approach.

**Responsibilities include:**

**Project Appraisal**

- Development and application of consistent project appraisal and revenue recognition and reconciliation methodologies, to include earned value
- Development of controls and processes to manage and monitor project performance
- Maintenance and analysis of financial and schedule data for all projects
- Provision of financial support to bids and proposals
- Review of and input to project billings
- Review of project cost information to ensure correct application and treatment

**Financial Planning and Analysis**

- Development and maintenance of processes that ensure company-level financial forecasts and plans accurately reflect latest project data
- Preparation of and input to financial forecasts in a timely manner
- Provision of support to external and internal audits

**Skills and personal qualities required:**

- Qualified accountant with recognised accountancy qualification, preferably CIMA
- Experience of program and project management and project accounting techniques and disciplines
- Strong communication and co-ordination skills
- Confident when interacting with employees at all levels
- Financial modelling skills to support bid construction and other investment analysis
- Ability to work independently, set priorities and see exercises through to completion

**Note:**

- The successful candidate must be able to obtain and maintain UK security clearance

**The successful candidate will enjoy a highly varied and responsible role within an exciting, dynamic and expanding technology company and will be working as part of a friendly, highly motivated and professional team.**
